## Dincolo de 1984 a lui Orwell, 5G și lansarea 6G: „Ușor de înlăturat o societate care este digitală”. UNCTAD încearcă să realizeze acest scenariu Doom

„Iadul este gol și diavolii sunt cu toții aici”. **William Shakespeare** , „Furtuna”, 1623

Analiza contemporană a lui **Peter Koenig** a „The Tempest 2020-2030”

### De la 5G la 6G

Noi, Oamenii, suntem într-o cursă împotriva globaliștilor dedicați depopulării; controlează supraviețuitorii, ne exploatează, ne dezumanizează și, în cele din urmă, ne digitalizează, astfel încât să putem fi controlați de la distanță prin 5G;

Și, acum, tocmai „lansat” de China, 6G. Vezi [China lansează coloana vertebrală a internetului de ultra-înaltă generație – SHINE News](#) .

**Nimeni nu știe cu adevărat, sau cel puțin nu a spus public ce trebuie să facă 6G, ce nu poate face deja 5G. De altfel, a fost studiat impactul 6G asupra sănătății? Pot fi. Dar nimeni nu divulgă rezultatele.**

Iată cum descrie *Qualcomm* 5G:

Rețeaua mobilă de generația a 5-a. Este un nou standard wireless global după rețelele 1G, 2G, 3G și 4G. 5G permite un nou tip de rețea care este concepută pentru a conecta aproape toată lumea și totul împreună, inclusiv mașini, obiecte și dispozitive. Vezi [asta](#) .

Nimeni nu a vorbit deschis despre impactul 5G asupra sănătății, totuși, acest lucru a fost studiat. Cu toate acestea, studiile nu sunt dezvăluite publicului.

### Dincolo de 1984 a lui George Orwell

Există „ghicirea”; iar oamenii de știință care prezintă adevărul care descrie impactul cauzat asupra vieții sălbatice și a oamenilor de aceste ultramicunde, sunt cel mai adesea etichetați „teoreticieni ai conspirației”.

Aceasta este expresia „taci” pentru tot ceea ce mainstreamul, Cabala, Matricea, Globaliștii nu vor ca publicul să știe. *Suntem cu mult dincolo de „1984” al lui George Orwell.*

Rețeaua mobilă de generația a 6-<sup>a</sup> sau 6G este de aproximativ 100 de ori mai rapidă, mai puternică decât 5G. Va putea digitaliza totul.

Iată ce are de spus *RantCell* despre 6G:

It is Operating at terahertz frequency bands, 6G will deliver a peak data rate of 1,000 gigabits/s having air latency less than 100 microseconds. When we talk about 5G vs 6G network speed, 6G speed is expected to be 100 times faster than 5G with enhanced reliability and wider network coverage. See [this](#) .

We, the People, are in a race – life against death. If we wake up and counteract, the Globalist's, namely the project of the diabolical protagonists of **UN Agenda 2030** and **The Great Reset** will “be doomed”.

But if we keep letting us being duped, We, the People, “Will go to Hell”.

This is the reason why the entire UN system is desperate to get the world digitized. The faster the better so, there may be not enough time for **We, the People, to wake up in masses to take our world, our lives back before it is too late.**

## The Financial, Military, IT, Media, Pharma Complex Nominates UNCTAD

Therefore, the United Nations, the political body under full control of the Globalist Cabal (openly led by Washington), but really, by the powerful **Financial, Military, IT, Media, Pharma Complex (FMIMPC)**, has nominated one of its under-agents, the UN Conference on Trade and Development (UNCTAD) as the flag-carrier – at least for now – for the deadly onslaught of All-Digitization.

UNCTAD –in blatant derogation of its **historical mandate on behalf developing countries, namely the Global South–**, will **level the playing field**, as the saying goes, on behalf of the entire UN System by announcing in a *Press Release in Geneva on 15 November 2023*, its e-Week from 4 to 8 December 2023, in a major revamp of its annual e-Commerce Week series which began in 2016.

UNCTAD's Secretary-General, Rebecca Grynszpan said,

“The digital economy plays a critical role in advancing development goals at all levels. Through inclusive and multi-stakeholder discussions, we can together build a global digital future that works for all.”

UNCTAD's infamous e-Week is called

**“UNCTAD e-Week 2023 to Mobilize Global Support for a More Inclusive Digital Economy.”**

Sub-titled:

“More than 3,000 stakeholders from 130 countries will examine how to turn digital opportunities into shared development gains and close existing divides for a sustainable future.”

The text of the Press Release abounds in sloganism, niceties and “noneties” (senseless talk for the “sold to the system gnomes”).

For example....

“The Conference is themed for “Shaping the Future of the digital economy”. The topics will feature over 150 sessions focused on tackling pressing issues related to digitalization. Key topics will range from platform governance, the development impact of artificial intelligence (AI), eco-friendly digital practices, to empowering women through digital entrepreneurship and accelerating digital readiness in developing countries.”

This intro-phrase hardly misses one of meaningless globalist jargons, that are now current and circulate in the minds of people, without them giving a second thought of what they really mean.

Wait a minute, they forgot the term “sustainable”. Surely, it will appear later in the text.

## UNCTAD and the “Digital Playing Field”

Very Important Persons (VIP) attending. They also talk about several high-level speakers like **Amandeep Sing Gill**, the UN Secretary General's Envoy on Technology; **Nizar Ben Neji**, Tunisia's minister of communication and technologies; as well as **Henry Puna**, Secretary General of the Pacific Islands Forum; and many more IT-VIPs.

The AI Potential. They are not missing out on Tapping the Artificial Intelligence (AI) potential, reminding the world that time is of the essence as the world navigates uncertainties surrounding emerging technologies, including the rapid uptake of AI, which is increasingly revolutionizing the digital economy.

It is clear – our future, the People's future, is being planned as a digital future. And that, without any consultation. The UN body and those who pull its strings are planning to decide for We, the People. But only if we let them.

Leveling the digital playing field will concentrate on the massive data flows from the digital economy, call for global governance responses to market concentration and unequal distribution of benefits.

They say that over 70% of the global digital advertising revenue goes to just five digital platforms.

So, what are they planning to do about it? Nothing. Because these five digital platforms control already the world – Alphabet, Amazon, Apple, Meta and Microsoft. These behemoths control about 9 trillion dollars-worth of IT communication. And now add “X” (former Twitter) and the horizon for change looks ultra-bleak, especially not by a minor UN body, called UNCTAD.

This is by far not all.

On the agenda also is another slogan: Harnessing the digital promise, which predicts and promises that the data-driven digital economy holds vast potential for countries to spur economic growth, foster innovation and reduce geographic and physical barriers to inclusive development.

Here is the final icing on the cake:

Digitalization for development – the UNCTAD e-Week platform for constructive and inclusive dialogue is to generate insights and actions that can feed into global efforts, particularly the ongoing UN Global Digital Compact, aimed at catalyzing an open, free, and secure digital future for all, leading up to the UN's 2024 Summit of the Future.

And for all of that, they need Stronger partnerships; especially with multiple global crises unfolding on geopolitical, economic and climate fronts, countries must make critical decisions to chart digitalization paths for equitable and sustainable development.

They may be talking about the unethical and illegal 2019 compact between **Klaus Schwab's** World Economic Forum (WEF) and the United Nations as well as the wantonly man-made worldwide wars and conflicts, chaos, and killings, just to keep the population at bay, confused and distracted.

This completes the sloganism: *Equitable and sustainable* is not forgotten.

## “Taking Down a Society That Is Digital”

When reading between the lines and beyond the slogans and digital jargon propaganda, it is not difficult to see that we are ever-more rapidly moving towards digital enslavement.

Consider what **Tucker Carlson** has to say in a recent interview that it is easy to “*Take Down a Society That is Digital.*”

Think about it.

If everything around us is run by digital signals that are controlled by the “Globalist Cabal” (namely the **FMIMPC**) **one or a few switches can turn off our different networks:**

- water supply, electricity, gas, all kinds of energy,
- food supply,
- fuel deliveries,
- traffic signals,
- all transportation,
- all communication,
- the money in our accounts, and much more.

The impacts on people's lives are beyond description. It does not need a nuclear explosion to implement its **depopulation agenda**, or the so-called “useless eaters” (a quote from WEF's Israeli **Yuval Noah Harari**), that could also endanger those who control the switches.

And We, the People, would be completely powerless.

Listen to Tucker Carlson's interview (start at 05:00).

### Theo and Tucker Carlson Ponder Where To Go When the World Collapses

By now, it should be clear to all of us what is being gradually and, in many ways, imperceptibly prepared for us, We, the People, is “Pure Evil”.

It is, We, who are in the Matrix. The Elites that control the few switches to run the End Game are outside the Matrix. They will keep their supply lines open – of everything, hoping to live in paradise where, We, the People, own nothing but are happy.

They remote control the Matrix. We self-proclaimed “red-pilled” people thought we were *outside* and could watch the chaos being created *inside*.

It is the other way around.

People, do not be fooled. It is a confrontation between the powerful elites, namely the **Financial, Military, IT, Media, Pharma Complex (FMIMPC)** and the **We the People**, namely Humanity acting Worldwide at the Grassroots of Society.
